Questionnaire on your choice of language for future issues of the *Quarterly News*

Overleaf there is a short survey on the contents of *Quarterly News*

Your choice of language

As mentioned in this edition of *Quarterly News* we are obliged to make economies. For future issues of *Quarterly News*, starting in 2019, we will therefore produce two editions, one in French and one in English and we ask you to let us know which language you prefer to receive in future. Both language versions will be available on our website and those of you who enjoy reading both will be able to consult the second language there.

If you do not inform us this will mean that we shall have to try and assess your preference, with all of the inconvenience it will cause you, and us, if we guess incorrectly and you wish to change it.

Your name:

Your address:

Your e-mail address:

Your choice of language: English French *(please circle the language of your choice)*

Accessing the *Quarterly News* on our website only

As before, the current issue will be posted on our website in both languages a few days before the printed issue is sent. We shall advise you by e-mail when it is available, with the added advantage to you that all photos will be in colour and all web addresses will be linked.

We are asking you to let us know whether you would forego receiving a printed version, in order to help us reduce the print runs and despatch costs, and in future to read the magazine on our website.

YES NO *(please circle the answer of your choice)*

Thank you for completing this questionnaire and mailing it as soon as possible to:

**AFSM/AOMS
Office 4141, WHO
Avenue Appia
CH-1211 Geneva 27
Switzerland**

Or scanning it and e-mailing it to: afsm_aoms@who.int

Whilst obtaining this essential information it would help us to learn your views on the contents of the *Quarterly News*, please take a few minutes to complete the simple survey overleaf.

Your opinion on the contents of the *Quarterly News*

We realize that you may have concerns over lack of anonymity; however we assure you that the results will be used solely by the Editorial Board to determine future publishing policy, and will not be shared with anyone else. You may be quite frank; it will help us fine-tune the contents to your preferences.
